MARCH 2009

## Cockburn celebrates 30 years

The City of Cockburn will celebrate its 30th anniversary this year and we're asking for **your** input on how best to mark the occasion.

Throughout the month of October, the City will host '30 days of Cockburn' kicking off with a free community concert and including a range of events and displays that demonstrate Cockburn's culture and history.

The City is calling on community groups or members of the community to submit expressions of interests to organise an event that will be considered as part of the anniversary celebrations.

Grants will be made available from the City to provide funding opportunities for the events, which must meet City specified criteria.

For more information on how to submit your expression of interest or ideas on how the City could celebrate please phone the City's grants officer on 9411 3444 or email [mbolland@cockburn.wa.gov.au](mailto:mbolland@cockburn.wa.gov.au).

## Message from the Deputy Mayor

It's great to see hundreds of Cockburn kids heading back to school last month after the long summer break period.

How lucky are the young people of Cockburn to be growing up in this area. Not only are we spoiled with great beaches and parks but Cockburn has great sporting clubs and facilities, skate parks, the South Lake Leisure Centre and of course the Cockburn Youth Centre.

I'm so impressed with the reaction the new Youth Centre has met with from young people who are dropping in daily in droves to take part in programs, speak with City staff, seek advice, hang out, play music or use the computer room.

The centre is run in association with the Cockburn Youth Advisory Committee (YAC) and I congratulate Youth Mayor Elyce Lines on her recent appointment. The YAC work alongside your Councillors on various matters and we look forward to sharing ideas with these talented young people.

I encourage any parents with children aged between 10 and 24 to take the time to visit the Youth Centre and see what is on offer for your family. Regular programs this year include dance classes, self defence, art workshops, jewellery making, music sessions and cooking classes all in a relaxed, supervised and supportive environment.

As always if you have any feedback for your Council please do not hesitate to be in contact with myself or your local ward Councillors, whose details are on the back of this publication.

Deputy Mayor  
Kevin Allen

## Lights on at the City of Cockburn

The City of Cockburn's administration building was lit up in bright colours for the first time on Australia Day.

The lighting, which replaces the fairy-lights previously strung through the trees that stand in front of the Rockingham Road building, was installed in a bid to reduce energy usage and maintenance costs.

The new LED lights, installed at the base of the trees, will continuously rotate through a colour sequence of red, green and blue, lighting up the trees and creating a unique Cockburn public light display.

City of Cockburn Director of Engineering Michael Littleton said the new LED lights use just 28 watts of power per tree compared with 1200 watts of power previously needed for the fairy lights.

When all nine trees are considered this equates to an energy saving of more than 97% in addition to reduced maintenance costs faced by the City for the ground-installed lights.

The lights will be switched on by a sensor system that determines nightfall and run continuously until 1am, seven days a week.

## Cockburn Libraries Crime Club - Champions in 2008

There are seven crime clubs in metropolitan Western Australia that are led by Licensed Private Investigator and professional criminal behaviour profiler, John Earley. Each year the crime clubs compete against each other in quizzes about crimes and criminals with subjects ranging from Jesse James to the Holocaust. Congratulations to the Cockburn Libraries Crime Club for their tremendous win in 2008. This lively group meets at Spearwood Library on the first Wednesday and third Friday of each month, from 10.00am to 12.00. Over a coffee they discuss and dissect real crimes. Come along and learn how to solve cold cases and find out about the history of crime. New members are always welcome. However, be warned, some of the sessions may be graphic, depicting pictures of crime scene violence.

### North Coogee Foreshore & Dual Use Path

The people of Cockburn and Fremantle can look forward to a rejuvenated beachfront with works about to commence on the North Coogee foreshore area following the appointment of Marsh Civil as the preferred earthworks contractor.

A joint initiative between Stockland, City of Cockburn and LandCorp the North Coogee Foreshore Works and Dune Rehabilitation Program will revitalise this section of the Cockburn coast.

The area is bounded by the South Beach car park to the north, the Rollinson Road car park to the south and the Islands apartment development to the east.

The program of works involves a general clean-up of the area, re-establishment of the native dune form, creation of beach access tracks and construction of a new dual

## Spearwood Ave Extension

Road works on Spearwood Avenue and Cockburn Road have met some significant delays.

Western Power are required to provide a shut down date to relocate the existing street lights safely.

After the street lights are relocated the road works can continue including stormwater drainage, median islands, road resurfacing and completion of the traffic signals.

These works cannot commence until the existing street lights are relocated. A current estimate puts the opening of Spearwood Avenue towards April 09.

Western Power have acknowledged that communication between parties and their customers needed to be addressed and has taken steps to address that. Western Power has recently appointed a new Customer Liaison Officer to improve communication and actionable items.

## Other Roads Projects

Works continue on Russell Road South and Beelias Drive. Once again there have been delays in project coordination due to resources and workloads. Both the City of Cockburn and Western Power are moving forward to action these projects and commission additional electrical works required. For more information go to:
